TO THE ADMINISTRATOR ADDRESSED:

SUBJECT: Testing Calendars for 2007-2008 and 2008-2009

This letter and the enclosed Student Assessment Calendar outline the testing schedules for the 2007-2008 and 2008-2009 school years. The grades and subjects for each assessment program specified are in accordance with state and federal regulations. Please note that several assessment decisions are pending final regulations and review by the U.S. Department of Education (USDE), and dates on the calendars are subject to change.

Highlights of the 2007-2008 and 2008-2009 calendars include the following:

- The Texas Assessment of Knowledge and Skills (TAKS) mathematics tests for Grades 9, 10, and exit level will continue to be administered on a staggered schedule. Graphing calculators must be provided for each examinee for the entire administration of the mathematics tests.

- Retest opportunities for the TAKS Grade 8 reading and mathematics tests have been added to the calendar beginning in 2007-2008 to comply with the Student Success Initiative (SSI). The Grade 8 dates mirror the testing dates for Grades 3 and 5.

- TAKS-Modified (TAKS-M) tests will be developed pending final regulations from the USDE regarding required assessments for students with disabilities who will be assessed using modified achievement standards. Further information, including the required grades and subjects, will be made available as soon as federal regulations are finalized. Note that TAKS-M dates have not been specified on the calendar, although placeholders have been included.

- TAKS-Inclusive (TAKS-I) tests for all grades and subjects assessed with TAKS have been added. Note that TAKS-I retest opportunities for Grades 3, 5, and 8 SSI subjects and for exit level will be available in the 2007-2008 school year.

- According to the December 16, 2005, executive order issued by the governor's office, additional end-of-course exams will be offered on an optional basis beginning in April 2008. An end-of-course testing window for Algebra I, biology, and geometry has been added to the 2007-2008 schedule; chemistry, physics, and U.S. history end-of-course exams have been added to the 2008-2009 schedule. In addition, field testing for end-of-course exams has been scheduled to occur after the spring TAKS administrations.

The enclosed calendar can also be accessed on the Student Assessment Division website at http://www.tea.state.tx.us/student.assessment/. If you have any questions about the assessment calendar, please contact the Student Assessment Division at (512) 463-9536. Thank you for your assistance in helping to ensure that the state assessment calendar meets state and federal requirements and also minimizes conflicts with local schedules.

Sincerely,

Shirley J. Neeley
