EXECUTIVE SUMMARY

A total of 66 sample cases were provided for ESC Region 18 students. Thirty-eight, or 58% of the total sample, provided information regarding their status after originally participating in a prior survey, the TEA "Texas Effectiveness High School Exit Survey" of work and educational/training activities after leaving high school.

Since leaving high school, most respondents (50%) have been both enrolled in postsecondary training, technical school, community college or university and been competitively employed. The second most common situation, representing 32% of respondents, includes not being enrolled but being employed. Ten of respondents reported they were enrolled but not employed, and 8% reported that they were neither employed nor employed.

TABLE A: ENROLLED VS. EMPLOYED

Enrolled	Employed	Frequency	Percent
Yes	Yes	19	50%
Yes	No	*	10%
No	Yes	12	32%
No	No	*	8%
Total		38	100%

**Data is omitted from table due to small sample size.*

Of the respondents that worked/work, the overwhelming majority report being employed in the community. Most respondents who have been employed worked/work at least 35 hours a week and were/are paid minimum wage. When the respondents who were/are not employed were asked why they have not been or are not employed, 90% reported that they "Don't know."

After high school, the majority of respondents who enrolled in school entered a 2-year Community College and were/are enrolled full-time.

Just over three-quarters of respondents have not contacted the Disability Services Department, and 82% of respondents have not contacted an adult service agency such as DARS, DADS, or the TWC.

Eighty-seven percent of respondents live with their parents or guardian, and 11% live in an apartment or house alone. Sixty-six percent report having health insurance, and 71% reported having a driver's license– each being exclusive of the other. Two-thirds of ESC Region 18 respondents are actively using bank services such as a checking account, savings account, and/or credit cards. The top five most common leisure or community activities include spending time with friends, watching TV, using the computer, exercising, and reading.

DATA COLLECTION AND SURVEY METHODS

DATA COLLECTION

Data collection utilized the VOXCO CATI software program and began on May 15, 2008, and ended on June 6, 2008. A total of 1,362 completed cases were collected for the full study: 1281 in English and 81 in Spanish. ESC Region 18 specifically had 38 completed interviews with 36 in English and 2 in Spanish.

Call attempts took place each day of the week (Monday through Sunday). Calls on weekdays were made in the evening from 4:00 p.m. to 9:00 p.m. On Saturdays, the calling window was from 11:00 a.m. to 7:00 p.m., and on Sundays from noon to 7:00 p.m. If a respondent requested or suggested a call back at a time outside of this range, an attempt was made to accommodate the request within the hours of 8 a.m. to 9 p.m. Central time zone.

Some people are reluctant to participate in surveys and may give a variety of reasons. For example, when contacted by an interviewer, potential respondents may tell the interviewer that they are too busy, not interested, are suspicious of the call, or think the call is taking too long. When this occurred, these calls were coded as first refusals or soft refusals. Because many people are willing to participate in a survey if they are re-contacted at a more convenient time, these household coded as first or soft refusals were called again after several days had passed, up to one week. Attempts to contact a potential respondent were discontinued if the potential respondent gave two soft refusals. More strongly worded refusals—for example, refusals in which the respondent asked to be taken off the list, yelled, made threats, or used profanity—were coded as hard refusals and were not re-contacted.

Table B shows final call dispositions for ESC Region 18.

TABLE B: FINAL CALL DISPOSITIONS

Total	66	100%
English Completes	36	54%
Spanish Completes	2	3%
Disconnect	7	11%
Wrong Number	8	12%
Answering Machine	7	11%
No Answer	2	3%
Final Refusal	2	3%
1st Refusal	2	3%
Fax/Modem	0	0%

Business/Government	0	0%
Busy	0	0%
Spanish No Answer	0	0%
Partial Refusal	0	0%
Spanish Answering Machine	0	0%
Caller ID	0	0%
Language Barrier, Deaf/TTY	0	0%

Table B shows final call outcomes for ESC Region 18 cases where 57% of all students agreed to be interviewed and only 6% actively refused participation. A total of 15 cases, or 23% of the sample, resulted in

a telephone number that was a non-working number or belonged to the wrong household. At the end of data collection, a total of 12% of the sample remained unresolved since all call attempts resulted in a non-contact.

SAMPLE MANAGEMENT

A total of 2,879 sample records were received in conducting the full study. At the onset of the project, the sample was reduced to 2,790 callable records due to missing telephone information and duplicate records. Of the 2,790 callable records, 66 specifically corresponded to ESC Region 18 students. After the initial sample release subsequent 'waves' of dialing included refusal conversion to non-final refusal records to maximize sample records.

As shown in Table C, for telephone numbers that eventually resulted in a completed interview, a maximum of ten call attempts were made to convert the initial non-final disposition such as no answer, busy, or answering machine to a completed interview. Final dispositions are permanent and would close the record from further dialing.

TABLE C: CALL ATTEMPTS BY COMPLETE

# Attempts	ESC 18 Total Completes	ESC 18 Total Non-Completes	ESC 18 Total Sample
1	10	1	11
2	6	4	10
3	9	7	16
4	3	1	4

6	0	2	2
7	1	2	3
8	0	0	0
9	0	2	2
10	2	1	3
11	2	2	4
12	0	3	3
13+	1	3	4
Total	38	28	66

INTERVIEWER TRAINING

All interviewers assigned to this survey were trained, experienced interviewers. Prior to beginning work on the survey, interviewers went through a detailed project briefing. This briefing entailed the following:

- Summary of project purpose and its importance.
- Answers to anticipated "frequently asked questions" (FAQ's).
- Question-by-question review of intent of question, acceptable responses, and special instructions for each question.
- Practice in conducting the interview.
- Intensive monitoring of the first interview until the interviewer was performing flawlessly.

CONFIDENTIALITY OF DATA

PTV DataSource recognizes that education-related surveys require specific measures to ensure respondent confidentiality and are committed to adhering to and enforcing appropriate confidentiality measures. This includes all staff members who will be involved with project efforts, as well as technology-based security of all data. Our project programs involved dual password settings so as to prevent access of any non-project team members. In addition, we abide by the Marketing Research Association's (MRA) recommended industry-wide practices to protect both client and respondent confidentiality.

All PTV DataSource employees involved with the project were required to sign Non-Disclosure agreements, which were sent to ESC Region 11 for verification and filing.

QUALITY CONTROL

A multi-stage QC process was utilized throughout the duration of the study including the following:

- A comprehensive interviewer-training (specifically focused on understanding and proper delivery of the CATI questionnaire).
- Expert program design input and detailed and repetitive program testing.
- Dedicated, permanent team of managers, trainers, supervisors and interviewers.
- On-site and off-site monitoring of interviewers' efforts by project-specific QC leaders.
- Ongoing, constant dual data reviews conducted by data collection leaders and by NuStats data cleaning team throughout the entire data collection period.
- Electronic tracking of interviewers' performance–dialing statistics, completed interviews, refusals, non-contacts, and average interview lengths.
- Electronic tracking of survey progress–sample dispositions, quotas, and frequencies.
- Electronic sample management–up-to-date status of each piece of sample along with customized and flexible dialing algorithms.

Live, full monitoring of CATI interviews that was led by project-dedicated Quality Control Managers and Supervisors served as the cornerstone of the QC process for this study. With computer assisted telephone interviewing, full monitoring sessions, where a conversation between an interviewer and a respondent is not only heard but also viewed through remote visual monitoring, are the most efficient and reliable method for ensuring that interviewers are reading scripts verbatim as well as accurately recording all data provided by respondents..

In addition, dual project data reviews were also a key part of the overall QC process. On a shift-by-shift basis, the PTV DataSource QC team actively checked data within the dialing program to identify any potential outlier data and to conduct immediate plausibility checks. This dual system helped to ensure that the PTV DataSource QC team was able to quickly correct any potential data issues and to also administer immediate remedial training for specific interviewers.

DATA CLEANSING AND FINAL PREPARATION

Data tabulation was conducted by NuStats. NuStats performed several QA/QC checks on the raw data to verify that there were no missing data items, inconsistencies, or duplicates. NuStats continued to run frequencies with the raw data in SPSS to provide an independent verification of the quality of the data.

If the raw data passed this QA/QC test, NuStats would run the tabulations and conduct a series of documented and proven QA/QC checks. At any point where numbers did not seem to be in sync, the QA/QC manager sent the data back to the statistical analyst who would return to the raw data, checking again for potential issues. The QA/QC manager also carefully reviewed each table and performed a thorough QA/QC check for missing data items, missing codes, totals not adding up, and any unusual formatting items.

Upon completion of the data cleaning and analysis, final data sets were developed into the SPSS format.

TOP LINE FINDINGS

NOTE: Due to a small sample size, all cells totaling less than six have been replaced by an asterisk to protect confidentiality.

Table 1 indicates that 50% of respondents are or have been enrolled in postsecondary training, technical school, community college, or university and been competitively employed. Fifty percent have not been enrolled in any of these activities.

TABLE 1: ENROLLED AND EMPLOYED?

	Frequency	Percent
Yes	19	50%
No	19	50%
Total	38	100%

Table 2 indicates that 21% of respondents who answered this question reported they have enrolled in postsecondary training, technical school, community college, or university but have not been competitively employed, while 79% of the respondents report that they have not been enrolled.

TABLE 2: ENROLLED AND NOT EMPLOYED?

	Frequency	Percent
Yes	*	21%
No	15	79%
Total	19	100%

Table 3 reports whether respondents had been competitively employed but not enrolled in postsecondary training; 80% replied, “Yes,” and 20% replied, “No.”

TABLE 3: EMPLOYED AND NOT ENROLLED?

	Frequency	Percent
Yes	12	80%
No	*	20%
Total	15	100%

Table 4 provides information on the remaining respondents from ESC Region 18, who have neither been enrolled in postsecondary training nor been competitively employed.

TABLE 4: NOT ENROLLED AND NOT EMPLOYED?

	Frequency	Percent
Yes	*	100%
No	0	0%
Total	3	100%

Table 5 reports that of the respondents who work or have worked, 94% reported being paid minimum wage. Six percent report they have not been paid minimum wage.

TABLE 5: JOB PAYS MINIMUM WAGE?

	Frequency	Percent
Yes	30	94%
No	*	6%
Total	32	100%

Table 6 indicates that 81% of respondents usually worked/work at least 35 hours a week. Nineteen percent of respondents have worked/work less than 35 hours per week.

TABLE 6: WORK AT LEAST 35 HOURS A WEEK?

	Frequency	Percent
Yes	26	81%
No	6	19%
Total	32	100%

Table 7 indicates that the overwhelming majority of ESC Region 18 respondents were/are employed "in the community." Four percent indicated that they were in the military.

TABLE 7: EMPLOYMENT STATUS

	Frequency	Percent
In the community	24	96%
In the military	*	4%
Total	25	100%

Table 8 focuses on enrollment after high school. After high school, 48% of respondents enrolled in a "2-year Community College Degree Program," 17% enrolled in a "4-year College or University Program," 9% enrolled in a "2-year Community College – Continuing Education Certificate Program," 4% enrolled both in a "Vocational/Technical Training Program" and a "High School Completion Program," and 17% reported that they "Don't know."

TABLE 8: WHERE DID YOU ENROLL AFTER HIGH SCHOOL?

	Frequency	Percent
2-year Community College Degree Program	11	48%
4-year College or University Degree Program	*	17%
2-year Community College - Continuing Education Certificate Program	*	9%
Vocational/Technical Training Program (i.e., computer technician, beautician, auto repair)	*	4%
High School Completion Program (i.e., Adult Basic Education, GED)	*	4%
Don't know	*	17%
Total	23	100%

Table 9 refers to the question regarding their status as a student. Of those students who enrolled, 74% were/are enrolled full-time. Seventeen percent indicated that they were not or are not enrolled full-time and 9% reported that they "Don't know."

TABLE 9: ENROLLED FULL-TIME?

	Frequency	Percent
Yes	17	74%
No	*	17%
Don't know	*	9%
Total	23	100%

As suggested in Table 10, 78% of respondents did not contact the Disability Services Department for support, in comparison to the 18% of respondents who did. Four percent reported, "Don't know."

TABLE 10: DISABILITY SERVICES DEPARTMENT SUPPORT

	Frequency	Percent
Yes	*	18%
No	18	78%
Don't know	*	4%
Total	23	100%

Table 11 refers to the question regarding their contact of an adult service agency such as DARS, DADS, and or the TWC. Eighty-two percent of respondents indicated that they did not contact an adult service agency since leaving high school. Only 2% reported contacting them, with the remaining 16% reporting, "Don't know."

TABLE 11: CONTACTED AN ADULT SERVICE AGENCY

	Frequency	Percent
Yes	*	2%
No	31	82%
Don't know	6	16%
Total	38	100%

Of the respondents who did contact an adult service agency, the "Department of Assistive and Rehabilitative Services" and "Don't know" were the selected choices.

TABLE 12: ADULT SERVICE AGENCIES CONTACTED

	Frequency	Percent
Department of Assistive and Rehabilitative Services	*	50%
Don't know	*	50%
Total	2	100%

Table 13 reports where respondents currently reside. Eighty-seven percent of respondents currently live with a "parent, guardian, or another family member," and 11% live in an "apartment or house alone." The remaining 2% live on a "military base/housing."

TABLE 13: CURRENT RESIDENCE

	Frequency	Percent
With parent, guardian or another family member (i.e., sister, brother, grandparent, aunt, uncle)	33	87%
Apartment/house alone or with roommate (independently)	*	11%
On military base or military housing	*	2%
Total	38	100%

In Table 14, 66% of respondents reported having health insurance coverage, while 34% are not covered.

TABLE 14: HEALTH INSURANCE COVERAGE

	Frequency	Percent
Yes	25	66%
No	13	34%
Total	38	100%

The range of activities respondents have currently participated in varied greatly. The most common activities were “spending time with friends” (19%), “watching TV or playing video games” (17%), “playing a game or checking email on the computer” (16%), “exercise” (14%) and “reading” (13%).

TABLE 15: ACTIVITIES

	Frequency	Percent
Spend time with friends (go to mall, eating out, movies, religious activities, etc.)	31	19%
Watch TV, play video games by myself	28	17%
Computer (games, email, etc.)	25	16%
Exercise	22	14%
Reading (books, newspapers, magazines)	21	13%
Hobby (painting, collecting, gardening, etc.)	20	12%
Organized sports/Outdoor activities (i.e., tennis, basketball, football, soccer, fishing, camping)	11	7%
None	*	1%
Don’t know	*	1%
Total	161	100%

Table 16 indicates that 71% of respondents reported having a driver’s license, while 29% report not having one.

TABLE 16: DRIVER’S LICENSE

	Frequency	Percent
Yes	27	71%
No	11	29%
Total	38	100%

Table 17 indicates 66% of respondents currently own a checking account, savings account, and/or credit card. Twenty-nine percent reported not using these banking activities while 5% reported, “Don’t know.”

TABLE 17: ACTIVELY BANKING

	Frequency	Percent
Yes	25	66%
No	11	29%
Don’t know	*	5%
Total	38	100%

The most common form of support received through the Office of Disability Services is "tutoring" (20%), "adaptive equipment" (20%), and "support for registration/scheduling" (20%). Forty percent of respondents said they "Don't know."

TABLE 18: SUPPORT RECEIVED THROUGH THE OFFICE OF DISABILITY SERVICES?

	Frequency	Percent
Tutoring	*	20%
Adaptive equipment	*	20%
Support for registration/scheduling; accessing support services, finding a personal assistant.	*	20%
Don't know	*	40%
Total	5	100%

Of those respondents who worked/work less than 35 hours a week, 33% of respondents reported working, "21-34 hours," 29% reported "16-20 hours," and 4% reported "15 hours or less." Thirty-three percent of respondents reported that they "Don't know."

TABLE 19: HOURS WORKED PER WEEK

	Frequency	Percent

Declined to answer..... 9

Q4:

Is this correct? Prior student has not been enrolled in postsecondary and has not been competitively employed?

Yes..... 1
No..... 2
Don't know..... 8
Declined to answer..... 9

Q5:

Did/do you get paid at least minimum wage? IF NEEDED: $5.85/HOUR

Yes..... 1
No..... 2
Don't know..... 8
Declined to answer..... 9

Q6:

Have you usually worked at least 35 hours or more a week?

Yes..... 1
No..... 2
Don't know..... 8
Declined to answer..... 9

Q7:

Where are/were you competitively employed? IF NEEDED: EARNING AT LEAST MINIMUM WAGE [$5.85 PER HOUR] IN A GENERAL PUBLIC SETTING AND WORKING AT LEAST 35 HOURS OR MORE A WEEK?

In the community 1
In the military 2
Supported employment (short-term support; earning at least minimum wage) 3
At home (earn at least minimum wage) 4
Self-employed (earn at least minimum wage) 5
Don't know 8
Declined to answer 9

Q8:

What kind of school or training program did you enroll in after exiting high school?

High School Completion Program (i.e., Adult Basic Education, GED) . 1
Apprenticeship Program (i.e., plumbing, electrician) 2
Vocational / Technical Training Program (i.e., computer technician, beautician, auto repair) 3
2-year Community College - Continuing Education Certificate Program4
2-year Community College Degree Program 5
4-year College or University Degree Program 6
Don't know 8
Declined to answer 9

Q9:

Were/are you enrolled full time? IF NEEDED: MINIMUM OF 12 HOURS

Yes 1
No 2
Don't know 8
Declined to answer 9

Q10:

Did you contact the Disability Services Department for support?

Yes 1
No 2
Don't know 8
Declined to answer 9

Q11:

Have you contacted an adult service agency since leaving high school? The Dept. of Assistive and Rehabilitative Services (DARS), Dept. of Aging and Disability Services (DADS)and the Texas Workforce Commission (TWC) are examples of adult service agencies.

Yes 1
No 2
Don't know 8
Declined to answer 9

Q12:

Which adult service agencies were contacted? SELECT ALL THAT APPLY

Department of Assistive and Rehabilitative Services 01
Blind and Visually Impaired Services 02
Deaf and Hard of Hearing Services 03
Rehabilitation Services 04
Mental Health Services 05
Mental Retardation Services 06
Adult Protective Services 07
Community Care Services 08
Health Services 09
Texas Workforce Commission 10
Disability Services Office (at college or university) 11
Social Security Administration 12
Don't know 98
Declined to answer 99

Q13:

Where do you currently live?

With parent, guardian or another family member (i.e., sister, brother, grandparent, aunt, uncle) 01 .....
Apartment/house alone or with roommate (independently) 02
College campus (dorm or other college housing) 03
On military base or military housing 04
Residential living facility with other disabled adults (supervised and highly structured) 05
Group Home with other disabled adults (supervised living) 06
Hospital or medical facility 07
Correctional facility or youth detention center 08
Transient (moving often: more than twice a year) 09
Don't know 98
Declined to answer 99

Q14:

Are you covered by health insurance?

Yes 1
No 2
Don't know 8
Declined to answer 9

Q15:

What recreation, leisure or community activities did you participate in recently? SELECT ALL THAT APPLY

None 01
Exercise 02
Computer (games, email, etc.) 03
Reading (books, newspapers, magazines) 04
Organized sports/Outdoor activities (i.e., tennis, basketball, football, soccer, fishing, camping) 05
Hobby (painting, collecting, gardening, etc.) 06
Spend time with friends (go to mall, eating out, movies, religious activities, etc.) 07
Watch TV, play video games by myself 08
Don't know 98
Declined to answer 99

Q16:

Do you have as driver's license?

Yes 1
No 2
Don't know 8
Declined to answer 9

Q17:

Do you have your own checking account, savings account and/or credit card(s)?

Yes 1
No 2
Don't know 8
Declined to answer 9

Q18:

What supports or accommodations have you received through the Office of Disability Services? SELECT ALL THAT APPLY

None 01
Tutoring 02
Scribe or note taker 03
Test accommodations 04
Adaptive equipment 05
Taped textbooks 06
Support for registration/scheduling; accessing support services;
finding a personal assistant 07
Large print or Braille 08
Additional time for assignments 09
Sign language interpreter 10
Orientation and Mobility services 11
Did not enroll in two or four year college 12
Don't know 98
No response to this question since response to question #10 was NO.. 13

Q19:

How many hours a week are or did you work(ing)?

1-10 1
11-15 2
16-20 3
21-34 4
Don't know 8
Declined to answer 9
No response to this question since response to question #6 was YES.... 5

Q20:

If you are NOT currently working and NOT currently in a school or training program, why not?

Looking for a job but can't find one 1
Did not meet requirements for school/training 2
Stay-at-home parent 3
Health problems prohibit working or school 4
In jail or prison 5
Don't know 8
Declined to answer 9

THANK:

Thank you. This completes our interview. We appreciate your participation.
