### **Chapter 5—Calculating 2020 Ratings**

#### **Overview**

In 2020, districts and campuses receive a *Not Rated: Declared State of Disaster* label overall and in each domain. This chapter describes the process that would have been used to determine the ratings for districts and campuses if districts and campuses were to receive *A–F* ratings for overall performance and performance in each domain in 2020.

### 2020 Ratings

#### **Scaling Processes**

In order to align letter grades and scores used in the *A–F* academic accountability system to the common conception of letter grades, raw domain and component scores are adjusted to scaled scores. The methodology and formulas for scaling domains and components are provided in this chapter. For additional details on the scaling methodology, please see Appendix I.

Please note, the graduation rate component does not use the scaling process described above. This component is scaled using a conversion table provided in this chapter.

#### Methodology

The following methodology is used to calculate domain and overall ratings.

#### **Student Achievement Domain**

Step 1: Determine a scaled score for the STAAR and College, Career, and Military Readiness (CCMR) components of the Student Achievement domain using Table 5.1 or 5.2 on page 63 in conjunction with the scaling methodology provided on page 67.

Determine a scaled score for the graduation rate component using the conversion table provided in Table 5.3 or Table 5.4 on page 64.

Step 2: Weight the STAAR component scaled score at 40 percent, the CCMR component scaled score at 40 percent, and the graduation rate converted score at 20 percent to determine the Student Achievement domain scaled score.

For districts and campuses lacking a graduation rate component, weight the STAAR component scaled score at 50 percent and the CCMR component scaled score at 50 percent to determine the Student Achievement domain scaled score.

For districts and campuses lacking both the CCMR and the graduation rate components, the STAAR component scaled score is the Student Achievement domain scaled score.

For districts and campuses lacking the CCMR component, weight the STAAR component scaled score at 100 percent.

#### **School Progress Domain**

Step 3: Determine a scaled score for both School Progress, Part A using Table 5.5 or Table 5.6 on page 65 and School Progress, Part B using the School Progress: Relative Performance Lookup Tables in conjunction with the scaling methodology provided on page 67.

Step 4: Determine the better outcome of the School Progress, Part A and Part B scaled scores. Use the better as the School Progress domain scaled score. If either Part A or Part B's scaled score results in an F rating, the highest scaled score that can be used is an 89.

#### **Closing the Gaps Domain**

Step 5: Determine a scaled score for the Closing the Gaps domain using Table 5.7 or Table 5.8 on page 65 in conjunction with the scaling methodology provided on page 67.

#### **Overall Rating**

Step 6: Determine the better outcome of the Student Achievement and the School Progress domain scaled scores. If either domain's scaled score results in an F rating, the highest scaled score that can be used is an 89.

Step 7: Weight the better outcome of the Student Achievement or the School Progress domain scaled score at 70 percent.

Step 8: Weight the Closing the Gaps domain scaled score at 30 percent. For districts and campuses lacking a Closing the Gaps domain score, weight the better outcome of the Student Achievement or School Progress domain scaled score at 100 percent.

Step 9: Total the weighted outcome of the two scaled scores to calculate the overall score.

Step 10: If an F rating is received in three of the four areas of Student Achievement; School Progress, Part A: Academic Growth; School Progress, Part B: Relative Performance; or Closing the Gaps, the highest scaled score a district, open-enrollment charter school, or campus can receive for the overall rating is a 59. In order for this provision to be applied, the district, open-enrollment charter school, or campus must be evaluated in all four areas. If the Student Achievement domain rating is a D or higher, this provision will not be applied.

A district may not receive an overall or domain rating of *A* if the district includes any campus with a corresponding overall or domain rating of *D* or *F*. In this case, the highest scaled score a district can receive for the overall or in the corresponding domain is an 89. If the campus is registered and evaluated under alternative education accountability (AEA) provisions as described in Chapter 7, this provision is not applied, if the AEA campus has an overall or corresponding domain rating of *D*. The provision is applied, if the AEA campus has an overall or corresponding domain rating of *F*.

Weighted domain outcomes are rounded to the nearest decimal point. Overall rating scores are rounded to the nearest whole number.

#### **Single-Campus Districts**

A school district or charter school comprised of only one campus that shares the same 2020 performance data with its only campus must meet the performance targets for the campus to demonstrate acceptable performance. For these single-campus school districts and charter schools, the 2020 performance targets applied to the campus are applied to the district, ensuring that both the district and campus receive identical ratings.

#### **Alternative Education Accountability (AEA) Bonus Points Methodology**

AEA charter schools and campuses registered for evaluation under AEA provisions can earn bonus points toward the overall scaled score. A maximum of ten AEA bonus point may be added to the overall scaled score for AEA charter schools or campuses.

A maximum of 10 bonus points may be added to the overall scaled score for points earned in these two indicators.

Credit for graduation plan type awards AEA charter schools and campuses bonus points for the
percentage of graduates in the all students group who graduate under either a Recommended High
School Plan (RHSP) or Distinguished Achievement Plan (DAP), Foundation High School Plan with an
Endorsement (FHSP-E), Foundation High School Plan with a Distinguished Level of Achievement

(FHSP-DLA). RHSP/DAP/FHSP-E/FHSP-DLA rates are based on the four-year longitudinal cohort. For AEA districts and campuses that use the annual dropout rate, an annual RHSP/DAP/FHSP-E/FHSP-DLA rate is calculated for bonus points. The annual rate is also used if no longitudinal graduation plan data meet the minimum size requirement. For AEA districts and campuses that use the annual dropout rate, the RHSP/DAP/FHSP-E/FHSP-DLA annual rates are calculated as the percentage of prior year graduates reported as having satisfied the course requirements for the RHSP, DAP, FHSP-E, or FHSP-DLA. The all students group is evaluated if there are at least ten annual graduates. Graduation plan bonus points are earned as described in Table 5.9 provided on page 54.

Credit for EOC retest assessments awards AEA charter schools and campuses bonus points for the
percentage of EOC retest assessments in the all students group at the Approaches, Meets, and
Masters Grade Level standards during the 2020 accountability cycle. The numerator for this
indicator consists of EOC retest assessments at the Approaches, Meets, and Masters Grade Level
standard. The denominator includes all EOC retest assessments. The all students group is evaluated
if there are at least ten EOC assessments across all subject areas. EOC retest bonus points are
earned as described in Table 5.10 provided on page 54.

#### **Example District Student Achievement Domain Calculation**

Component	Component Score	Scaled Score	Weight	Weighted Points
STAAR	36	62	40%	24.8
CCMR	57	86	40%	34.4
<b>Graduation Rate</b>	87.3	60	20%	12.0
	71			
	С			

### **Example Overall Rating Calculation**

Domain	Scaled Score	Better of School Progress Part A or Part B	Better of Student Achievement or School Progress	Weight	Weighted Points
Student Achievement	71				
School Progress, Part A	89	89	89	70%	62.3
School Progress, Part B	84	89			
Closing the Gaps	81	30%		24.3	
			Ove	rall Score	87
			2020 Ove	rall Rating	В

### **2020 Cut Scores for Scaling Conversion**

The following table shows the 2020 cut points for each rating. These cut points apply to the overall rating as well as the rating for each domain.

Overall and Domai	n Rating Cut Points			
Α	В	С	D	F
scaled score 90–	scaled score 80–	scaled score 70–	scaled score 60–	scaled score ≤59
100	89	79	69	Scaled Score 233

### **Scaling Tables**

School Progress, Part B: Relative Performance lookup tables are available at the end of this chapter.

50–54	3											
55–59	4											
60–100	5											

#### **How to Convert to a Scaled Score**

Use the cut point tables to convert a raw domain or component score to a scaled score by using the following corresponding formula.

	Formulas Used to Create Scaled Scores
А	Round $\left(100 - \frac{10(100 - \text{raw})}{100 - A \text{ cut point}}\right)$
В	Round $\left(89 - \frac{9((A \text{ cut point} - 1) - \text{raw})}{(A \text{ cut point} - 1) - B \text{ cut point}}\right)$
С	Round $\left(79 - \frac{9 ((B \text{ cut point} - 1) - \text{raw})}{(B \text{ cut point} - 1) - C \text{ cut point}}\right)$
D	Round $\left(69 - \frac{9((C \text{ cut point} - 1) - \text{raw})}{(C \text{ cut point} - 1) - D \text{ cut point}}\right)$
F	Round $\left(59 - \frac{29\left((D \text{ cut point} - 1) - \text{raw}\right)}{(D \text{ cut point} - 1)}\right)$

### **Example: Converting to a Scaled Score**

A school district received a Closing the Gaps domain score of 67. The district scaling table shows a Closing the Gaps domain score between 62–88 for a non-AEA district falls within the *B* range. To convert the domain score to a scaled score, use the scaling formula for the *B* range.

Round 
$$\left(89 - \frac{9((89 - 1) - 67)}{(89 - 1) - 62}\right)$$
  
Round  $\left(89 - \frac{9(88 - 67)}{88 - 62}\right)$   
Round  $\left(89 - \frac{9(21)}{26}\right)$   
Round  $\left(89 - \frac{189}{26}\right)$   
Round  $\left(89 - 7.3\right)$   
Round  $\left(81.7\right)$   
Scaled Score = 82
