Purpose:

This document outlines the specific intervention activities in which campuses that receive a Comprehensive Support Identification (CSI) under federal accountability are required to engage. The methodology for identification under federal accountability is explained in the 2023 Accountability Manual, and the federal identification list of campuses is available to the public on the 2023 Accountability page in order to comply with federal mandates.

Intervention Requirements Campuses Identified for Comprehensive Support

Action	Due Date/Timeline	Additional Information and Resources
Superintendent identifies a District Coordinator of School Improvement (DCSI) and enters DCSI contact into ISAM	No later than December 15, 2023	• DCSI Role Description
DCSI attends ESF 3.0 Overview training	No later than February 29, 2024	• Contact your local ESC for training dates. • If the DCSI has already attended an ESF 3.0 Overview training prior to 11/16/23, they do not have to attend again.
Optional/encouraged: campus engages in ESF Diagnostic	*January-March 2024*	• *Contact your local ESC or the Center for Effective Schools for diagnostic information.*
Optional/encouraged: LEA applies for ESF Focused Support Grant	*Application window: Jan-Feb 2024* *Award notification: late April 2024*	• *Grant information will be shared in upcoming correspondence* • *Grants are posted on the TEA Grant Opportunities page.*
The campus develops and implements an improvement plan	Dates, activities, and format determined locally	• *Campuses may use any format they choose to plan and track implementation. The 806 platform is still available as a planning tool for districts and campuses to use.*
The DCSI submits the improvement plan in the 806 platform	No later than June 7, 2024	• Updates to the 806 platform and details about this submission will be released in January 2024.
