00:29:26 Monica Brewer: discover.carnegielearning.com/THL3.html

00:29:43 Jose Macias: This ppt will be shared afterwards?

00:30:12 Monica Brewer: Yes, we will share it.

00:38:44 Monica Simonds: Do the family guides come in languages other than English?

00:39:15 Monica Brewer: Yes, they will be in Spanish also.

00:40:49 Devin Holmes: How long is Texas contracted with Carnegie?

00:41:49 Chams Chamri: Any other languages beside Spanish?

00:43:02 Amy Harp: Is Carnegie requiring professional learning for the product? My understanding is that the district must pay money for professional learning to access the product.

00:43:15 Yolanda Flores: Collaborate with local colleges and universities to create opportunities for students to see the progression of their learning and how it impacts their educational journey.

00:46:00 Blake Haygood: What potential is there for using Mathia to accelerate learning or compact the curriculum for our students who are ahead?

00:46:03 Patty Hammer: Have you thought about acceleration?

00:47:03 Monica Simonds: I saw a 6/7 and 7/8 "course" that I was thinking could help plan for some acceleration. Would love seeing it for 2 or 3 and up.

00:48:07 Kari Lockhart: Have you considered sharing resources with ATPE?

00:48:14 Angela Neal: Would it be possible to provide a career connection or application of the topic within math or science field? Perhaps include something like a menu for independent choice of the extension activities to provide choice for the students?

00:48:32 Monica Simonds: Our teachers BEG for replacement tasks for our advanced learners more than long-term projects. I'd love to see more than one stretch problem.

00:49:10 Patty Hammer: So, is Algebra 2 the highest level of math offered?

00:49:11 Monica Simonds: Curate...and tagged with the TEK.

00:49:39 Monica Simonds: Are you looking at other subject areas?

00:50:47 Monica Simonds: I wonder if (to start) there could be one document with all the "stretch" or "extensions" so we could easily share with our gen ed teachers and get the excited about extending.

00:50:57 Monica Simonds: And in multiple subject. :)

00:51:31 Blake Haygood: Is there anything within the THL that could be considered a "conventional" digital textbook?

00:51:37 Monica Simonds: Context....gen ed teachers don't have time to search so if it were in one place they would be more likely to use it.

00:52:44 Melissa Lautenschlager: <https://texashomelearning.org/>

00:52:45 Blake Haygood: Is there potential for collaboration with programs like cK-12 (the OER textbook group, not virtual school) to create interactive "books?"

00:52:56 Monica Simonds: I LOVE this idea, by the way! Many hands/brains make light work. This would help us tremendously!

00:57:12 Melissa Lautenschlager: Melissa.lautenschlager@tea.texas.gov

00:58:12 Melissa Lautenschlager: Thank you all for the time today and please reach out with any questions or if I can help support.

00:58:27 Patty Hammer: Thank you!
00:58:53 Vince Moore: Thank y'all!
00:58:59 LeTrecia Hale: Thank you!
00:59:00 Chad Haskins: Thank you!
00:59:01 Blake Haygood: Thank you, both!
00:59:06 Chams Chamri: Thank you
00:59:08 Darla Leach: Thank you!
00:59:11 Angela Neal: Thank you!
00:59:23 Shirley Munoz: Thank you
00:59:23 cuyler anderson: Thank you
