

Proclamation 2022 Report of Required Corrections

This report lists errors identified by either the publisher or the state review panel after being reviewed at the July 2021 state review panel meeting. This report includes how the publisher intends to correct the error. All corrections are to be made to the final versions provided to schools as a condition of adoption by the State Board of Education.

Publisher: Goodheart-Wilcox Publisher

<i>Texas Health Skills for Middle School - Online Learning Suite</i>	9781683115281	View Link	554	Fetal Stage Section "By the fourth month, the fetus has grown enough that the pregnant person looks pregnant."	The pregnant person may or may not look pregnant by the fourth month depending on her weight at conception, her stature, whether this is her first pregnancy. Many women do not know they are pregnant until well after the fourth month if they are only relying on whether they "look pregnant."	Accept; on page 554, we will change the sentence to "By the fourth month, the fetus has grown enough that, in most cases, the pregnant person looks pregnant."

According to the CDC, the range encompassing failure rates for perfect use and less than perfect use of fertility awareness methods (FAM) is 2-23%. Goodheart-Willcox will update this table with failure rates that match the CDC statistics. This information will also be updated in <i>Texas Health Skills for High School</i> .
