# Introduction

The data tables and listings in this report provide secondary school completion and dropout data at the district level as a supplement to *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06* (Texas Education Agency [TEA], 2007a). This supplement includes annual dropout rates for students in Grades 7-12 and longitudinal rates for secondary school graduates, continuing students, General Educational Development (GED) certificate recipients, and dropouts. District listings of annual dropout rates for 2005-06 and completion rates for the class of 2006 are presented. Also included is a table with selected rates for the 20 largest school districts. A listing of the counts that make up the longitudinal cohort is also presented. This supplement also contains information on rate calculations and data quality; more information can be found in *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06* (TEA, 2007a). A district listing of year-to-year reporting of students is included. Tables are presented allowing comparisons of average annual dropout and longitudinal dropout rates for district groupings based on a variety of enrollment, staffing, and financial characteristics. For reference, a list of school districts in each Texas county is presented. Supplemental listings at the county and campus levels are available in *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06: County Supplement* (TEA, 2007b) and *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06: District and Campus Supplement* (TEA, 2007c).

## Calculations

All data used in this report were collected and reported by Texas school districts and charter schools through the Public Education Information Management System (PEIMS) maintained by the Texas Education Agency (TEA) or by General Educational Development (GED) testing centers, which submit records to TEA. The rate calculations are the same as those used in the Academic Excellence Indicator System (AEIS).

In this report, the annual dropout rate is the percentage of students who dropped out of either Grades 7-8, Grades 9-12, or Grades 7-12 during the 2005-06 school year:

$$\text{annual dropout rate} = \frac{\text{number of dropouts during the school year}}{\text{total number of students served during the school year}} \times 100$$

For the 2005-06 school year, dropouts in the annual rate are defined and counted according to the *2006-07 Public Education Information Management System Data Standards* (TEA, 2006a) and *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06* (TEA, 2007a). In 2003, the 78th Texas Legislature passed legislation affecting the dropout rate calculated by TEA. Senate Bill (SB) 186 (Texas Education Code §39.051, 2004) required that dropout rates be computed according to the National Center for Education Statistics (NCES) dropout definition beginning with the 2005-06 school year. Under the NCES definition, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not graduate, receive a GED, continue school outside the public school system, begin college, or die. The total number of students in the denominator of the dropout rate is the cumulative number of students in attendance in the district at any time during the school year. *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06* (TEA, 2007a) contains information on the changes to data collection and processing that occurred as a result of adoption of the national definition.

Longitudinal rates analyze student progress through high school. A cohort of students is tracked over a number of years, from the time students enter a specified grade until the fall following their anticipated graduation date. A cohort is identified by the starting grade and anticipated year of graduation. This report tracks the Grade 9 cohort, which consists of Texas public school students who attended Grade 9 for the first time in the 2002-03 school year and were expected to have graduated in spring 2006. The Grade 9 cohort includes both students who began ninth grade in a Texas public school in 2002-03 and all students who entered the Texas public school system during the next four years and joined the cohort on grade level.

A subset of the cohort, called a class, is used to calculate the longitudinal rates presented in this report. A class consists of members of a cohort less those who leave the Texas public school system for reasons other than graduating, receiving a GED, or dropping out or who cannot be tracked. Each class is identified by the anticipated year of graduation. This report uses the class of 2006 to calculate longitudinal rates of the Grade 9 cohort. The longitudinal rates are based on the final statuses of

students; therefore, only students from the cohort for whom final statuses are assigned are included as members of the class. The final status of each student is determined the year graduation was expected. The four possible statuses are: graduated, continued high school in the fall after graduation was expected, received a GED certificate, and dropped out. Dropouts are counted according to the dropout definition in place the year they leave school. Students in the class of 2006 who left school during 2005-06 were counted according to the national dropout definition, whereas students from the same class who dropped out in previous years were counted according to the definitions in place in those years. Information on how dropouts were counted during previous years of the cohort can be found in *Secondary School Completion and Dropouts in Texas Public Schools, 2002-03* (TEA, 2004), *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (TEA, 2005), and *Secondary School Completion and Dropouts in Texas Public Schools, 2004-05* (2006b). Dropping out is not necessarily the final status of a student. The status of a student who drops out changes if he or she returns and graduates, obtains a GED, or continues in school. Dropping out becomes the status of record only if it is the final status for a student.

The class of 2006 is identified as students who attended Grade 9 for the first time in the 2002-03 school year, who were expected to have graduated in spring 2006, and whose final statuses in the Texas public schools could be determined. Students who left the Texas public school system for reasons others than graduating, receiving a GED, or dropping out or who could not be tracked were removed from the count of students in the class of 2006.

As an example, the longitudinal rate for graduates is calculated by dividing the number of students who graduated by the number of students in the class:

$$\text{longitudinal rate, graduated} = \frac{\text{number of students graduating by year 4}}{(\text{number of students entering Grade 9}) - (\text{transfers out}) + (\text{transfers in})} \times 100$$

Longitudinal rates for students who continued high school, GED certificate recipients, and dropouts are calculated in a similar manner. The sum of the four rates is equal to 100 percent.

Students who graduated or continued high school make up the completion rate for the class of 2006. This rate is a base indicator under standard Texas public school accountability procedures and is denoted by the label Completion I. Completion II includes GED recipients, in addition to graduates and continuing students. The Completion II rate is an indicator under alternative education accountability procedures, which apply to campuses and districts dedicated to serving students at risk of dropping out of school. For further explanation of the completion rate, see *Secondary School Completion and Dropouts in Texas Public Schools, 2005-06* (TEA, 2007a).

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of dropouts is not reported, the total number of students is presented in intervals of 15 to provide a general idea of the number of students in the group while maintaining student anonymity. In a group of <150, for example, the number of students is between 135 and 149. A dot (.) indicates there were no students in the group or, in rare cases, that a reporting anomaly prevented calculation of the rate.

		Received GED	98	1,830	5.4	1.0	5.6	6.0	6.8	5.8

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

		Continued	-	<155	7.8	12.0	10.0	6.1	9.4	14.0

*Note.* A dash (-) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (-) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

Note. A dash (-) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (-) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

Note. A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

*Note.* A dash (—) indicates data are not reported to protect student anonymity. When the number of students represented by a final status is not reported, the class size is presented in intervals of five to provide a general idea of the number of students in the class while maintaining student anonymity. In a class of <150, for example, the number of students is between 145 and 149. Completion I consists of students who graduated or continued high school. Completion II consists of students who graduated, continued high school, or received General Educational Development (GED) certificates.

## Notes on Tables 1-6

### All Students

All students reported is a cumulative total of students served at the campus or in the district, county, or state during the school year.

### At-Risk

An at-risk student is one who is identified as at risk of dropping out of school according to state statute (Texas Education Code §29.081, 2005).

### Class

A class is a subset of a Grade 9 cohort (see **Cohort**) used to calculate longitudinal student status rates. A class consists of members of a Grade 9 cohort less those who leave the Texas public school system for reasons other than graduating, receiving a General Educational Development (GED) certificate, or dropping out or who cannot be tracked. A class is identified by the expected year of graduation. For example, members of the class of 2006 are identified as students who attended Grade 9 for the first time in the 2002-03 school year and were expected to have graduated in spring 2006. The final status of each student is determined the year graduation was expected. Longitudinal rates are based on the four possible final statuses of students: graduated, continued high school in the fall after graduation was expected, received a GED certificate, or dropped out. Only students in the cohort to whom final statuses are assigned are included as members of the class. Students who leave the Texas public school system for reasons other than graduating, receiving a GED, or dropping out or who cannot be tracked are removed from the count of students in the class.

### Cohort

A cohort is defined as the group of Texas public school students who begin Grade 9 for the first time in the same school year plus all students who enter the Texas public school system during the next four years and join the cohort on grade level. To analyze student progress through high school, a cohort of students is tracked over five school years, from the time they enter Grade 9 in the Texas public school system until the fall following their

anticipated graduation date. Each cohort is identified by the starting grade and anticipated year of graduation. For example, members of the class of 2006 Grade 9 cohort were identified as students who attended Grade 9 for the first time in the 2002-03 school year and were anticipated to have graduated in spring 2006.

### Continuing Student

A continuing student is one who is enrolled in a Texas public school in the fall of the school year following expected graduation.

### Dropout

A dropout is defined and counted according to the dropout definition in place the year the student drops out. For 2005-06, the state definition was changed to match the National Center for Education Statistics (NCES) definition. Under the NCES definition, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not graduate, receive a GED, continue school outside the public school system, begin college, or die. Because of the change, students in the class of 2006 who left school in 2005-06 were subject to a different dropout definition than the definitions that applied to students from the same class who left in previous years. For more information on the definition of a dropout and calculation of dropout rates, refer to the *Public Education Information Management System Data Standards* (e.g., TEA, 2006a) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2007a).

### Economically Disadvantaged

An economically disadvantaged student is eligible for free or reduced-price lunch or eligible for other public assistance, as defined in the *2006-2007 Public Education Information Management System Data Standards* (TEA, 2006a). Eligibility for free or reduced-price lunch or other public assistance is reported for each student at the time of enrollment and is used as a proxy for economically disadvantaged status.

### GED Recipient

A GED recipient is a student awarded a GED certificate.

### Graduate

A graduate is a student awarded a high school diploma by a Texas public school.

**Leaver**

A leaver is a student reported by a district as having left school for reasons other than graduating, receiving a GED, or dropping out. In most cases, leavers exit Texas public school to enter other educational settings, such as private schools in Texas, schools out of state, or home schooling. For more information on the definition of a leaver, refer to the *Public Education Information Management System Data Standards* (e.g., TEA, 2006a) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2007a).

**Student Identification Error**

A student identification error is a student record submitted to the agency with problematic identification information. The unique identifying information of a student record permits year-to-year tracking of a student. A student identification error prevents tracking.

**Underreported Student**

An underreported student is one who is reported in attendance but for whom neither reenrollment nor leaver information is reported subsequently.

**Table 7**

## Notes on Table 7

### Dropout

A dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not graduate, receive a General Educational Development (GED) certificate, continue school outside the public school system, begin college, or die.

### GED Recipient

A GED recipient is a student awarded a GED certificate by August 31, 2006.

### Graduate

A graduate is a student awarded a high school diploma by a Texas public school.

### Mover

A mover is a student who moves from one Texas public school district to another.

### Other Leaver

A leaver is a student reported by a district as having left school for reasons other than graduating, receiving a GED, or dropping out. In most cases, leavers exit Texas public school to enter other educational settings such as private schools in Texas, schools out of state, or home schooling. For more information on the definition of a leaver, refer to the *Public Education Information Management System Data Standards* (Texas Education Agency [TEA], 2006a) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (TEA, 2007a).

### Previous Graduate

A previous graduate is a student reported to have graduated from a Texas public school in a previous school year.

### Reporting Total

The reporting total is the total number of records for students in Grades 7-12 who were reported in enrollment or attendance in one school year.

### Returning Student

These are students reported in enrollment or attendance in one school year who were reported to have reenrolled in the same district by the beginning of the next school year.

### Underreported

An underreported student is a student reported in enrollment or attendance in one school year who has not been accounted for through district records or TEA processing the next year. The **Percent Underreported** is calculated by dividing the **Number of Underreported** students by the **Reporting Total** and multiplying by 100:

$$\text{Percent Underreported} = \frac{\text{Underreported}}{\text{Reporting Total}} \times 100$$

## **Rates by District Characteristic**

## Notes on Tables 8 and 9

*Source.* Data about teachers, district expenditures, and students are from the Public Education Information Management System (PEIMS). Tax and property data are provided by the Comptroller's Property Tax Division. Information about college admission examinations and the Texas Assessment of Knowledge and Skills (TAKS) is provided by the test contractors. All data are for the 2005-06 school year, with the exception of college admissions and district expenditures, which lag one year.

### All Students

All students reported is a cumulative total of students served at the campus or in the district, county, or state during the school year.

### Class

A class is a subset of a Grade 9 cohort used to calculate longitudinal student status rates. A class consists of members of a Grade 9 cohort less those who leave the Texas public school system for reasons other than graduating, receiving a General Educational Development (GED) certificate, or dropping out or who cannot be tracked. A class is identified by the expected year of graduation. For example, members of the class of 2006 are identified as students who attended Grade 9 for the first time in the 2002-03 school year and were expected to have graduated in spring 2006. The final status of each student is determined the year graduation was expected. Longitudinal rates are based on the four possible final statuses of students: graduated, continued high school in the fall after graduation was expected, received a GED certificate, or dropped out. Only students in the cohort to whom final statuses are assigned are included as members of the class. Students who leave the Texas public school system for reasons other than graduating, receiving a GED, or dropping out or who cannot be tracked are removed from the count of students in the class.

### Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

### Cost of Education Index

The Cost of Education Index (CEI) reflects geographic variations in costs beyond the control of districts. The CEI has a minimum value of 0.0 and a maximum of 1.2. Most districts have CEI values of at least 1.0. Districts with CEI values of 0.0 are primarily charter school districts. Districts are grouped into five subcategories, each with approximately the same number of districts.

### District Type

Districts are grouped into eight subcategories, ranging from major urban to rural, based on factors such as enrollment, growth in enrollment, economic status, and proximity to urban areas. Charter school districts make up a ninth subcategory. The subcategories are as follows.

*Major Urban.* A district is classified as major urban if: (a) it is located in a county with a population of at least 700,000; (b) its enrollment is the largest in the county or at least 75 percent of the largest district enrollment in the county; and (c) at least 35 percent of enrolled students are economically disadvantaged. A student is reported as economically disadvantaged if he or she is:

- eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- from a family with annual income at or below the federal poverty line;
- eligible for Temporary Assistance to Needy Families or other public assistance;
- a recipient of a Pell Grant or comparable state program of need-based financial assistance;
- eligible for programs assisted under Title II of the Job Training Partnership Act; or
- eligible for benefits under the Food Stamp Act of 1977.

*Major Suburban.* A district is classified as major suburban if: (a) it does not meet the criteria for classification as major urban; (b) it is contiguous to a major urban district; and (c) its enrollment is at least 3 percent that of the contiguous major urban district or at least 4,500 students. A district also is classified as major suburban if: (a) it does not meet the criteria for classification as major urban; (b) it is not contiguous to a major urban district; (c) it is located in the same county as a major urban district; and (d) its enrollment is at least 15 percent that of the nearest major urban district in the county or at least 4,500 students.

**Other Central City.** A district is classified as other central city if: (a) it does not meet the criteria for classification in either of the previous subcategories; (b) it is not contiguous to a major urban district; (c) it is located in a county with a population of between 100,000 and 699,999; and (d) its enrollment is the largest in the county or at least 75 percent of the largest district enrollment in the county.

**Other Central City Suburban.** A district is classified as other central city suburban if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is located in a county with a population of between 100,000 and 699,999; and (c) its enrollment is at least 15 percent of the largest district enrollment in the county. A district also is other central city suburban if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is contiguous to an other central city district; (c) its enrollment is greater than 3 percent that of the contiguous other central city district; and (d) its enrollment exceeds the median district enrollment for the state of 726 students.

**Independent Town.** A district is classified as independent town if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it is located in a county with a population of 25,000 to 99,999; and (c) its enrollment is the largest in the county or greater than 75 percent of the largest district enrollment in the county.

**Non-Metropolitan: Fast Growing.** A district is classified as non-metropolitan: fast growing if: (a) it does not meet the criteria for classification in any of the previous subcategories; (b) it has an enrollment of at least 300 students; and (c) its enrollment has increased by at least 20 percent over the past five years.

**Non-Metropolitan: Stable.** A district is classified as non-metropolitan: stable if: (a) it does not meet the criteria for classification in any of the previous subcategories; and (b) its enrollment exceeds the median district enrollment for the state.

**Rural.** A district is classified as rural if it does not meet the criteria for classification in any of the previous subcategories. A rural district has either: (a) an enrollment of between 300 and the median district enrollment for the state and an enrollment growth rate over the past five years of less than 20 percent; or (b) an enrollment of less than 300 students.

**Charter School Districts.** Charter school districts are open-enrollment school districts chartered by the State Board of Education. Established by the Texas Legislature in 1995 to promote local initiative, charter school districts are subject to fewer regulations than other public school districts. Generally, charter school districts are subject to laws and rules that ensure fiscal and academic accountability but that do not unduly regulate instructional methods or pedagogical innovation. Like other public school districts, charter school districts are monitored and accredited under the statewide testing and accountability system.

### **Dropout**

A dropout is defined and counted according to the dropout definition in place the year the student drops out. For 2005-06, the state definition was changed to match the National Center for Education Statistics (NCES) definition. Under the NCES definition, a dropout is a student who is enrolled in public school in Grades 7-12, does not return to public school the following fall, is not expelled, and does not graduate, receive a GED, continue school outside the public school system, begin college, or die. Because of the change, students in the class of 2006 who left school in 2005-06 were subject to a different dropout definition than the definitions that applied to students from the same class who left in previous years. For more information on the definition of a dropout and calculation of dropout rates, refer to the *Public Education Information Management System Data Standards* (e.g., TEA, 2006a) and the report, *Secondary School Completion and Dropouts in Texas Public Schools* (e.g., TEA, 2007a).

### **Economically Disadvantaged**

An economically disadvantaged student is eligible for free or reduced-price lunch or eligible for other public assistance as defined in the *2006-2007 Public Education Information Management System Data Standards* (TEA, 2006a). Eligibility for free or reduced-price lunch or other public assistance is reported for each student at the time of enrollment and is used as a proxy for economically disadvantaged status. (See also **Students: Economically Disadvantaged, Percentage**.)

### **Education Service Center Regions**

The state is divided into 20 geographic regions, each served by an education service center (ESC). Although not usually the case, an ESC may serve districts outside its geographic boundaries. For this

category, districts are grouped by the ESC regions that serve them, not by the ESC regions in which they are located geographically.

### **Enrollment**

Districts are grouped into nine subcategories based on number of students enrolled. Enrollment counts are taken on a specified date in late October of each year.

### **Ethnicity**

Ethnicity is one of the demographic characteristics reported for each student at the time of enrollment.

### **Highest Property Value**

Each district is placed into one of four subcategories of taxable property based on type of property with the highest value for the district. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not have taxable property. The four subcategories of taxable property are:

- residential: single-family and multi-family residential, and residential inventory;
- land: vacant lots and taxable rural real property;
- oil and gas: oil, gas, and minerals; and
- business: commercial and industrial real property, commercial and industrial personal, and utilities.

### **Operating Cost Per Student**

Operating costs are the sum of actual expenditures for a district's operation. Note that the number shown is not the amount actually spent on each student, but rather a per-student average of the total. Per-student amounts are calculated as expenditures for the prior school year divided by the current number of students. Districts are grouped into five subcategories, each with approximately the same number of districts.

### **Property Wealth: Average, Equal Student Groups, and Median**

Property wealth is used as an indicator of a district's ability to raise local funds on a per-student basis. It is calculated as total taxable property value for the last completed calendar year divided by total enrollment for the current school year. Taxable value is the traditional measure of value, not the alternative value used in state funding

formulas. The "property wealth: average" category classifies districts as either under or over the state average for district property wealth. The "property wealth: equal student groups" category groups districts by property wealth into 20 subcategories, each accounting for approximately the same number of students. The "property wealth: median category" groups districts by property wealth into 10 subcategories, each with approximately the same number of districts. In each of the three categories, special statutory school districts and charter school districts make up a separate subcategory, labeled "non-taxing entities," because they do not have taxable property wealth.

### **SAT/ACT: At or Above Criterion, Percentage**

Districts are grouped into five subcategories based on percentage of examinees in the prior year who scored at or above the criterion score on either the SAT or ACT. Districts that did not have test takers make up a sixth subcategory. Criterion on the SAT is a combined score of 1110, and criterion on the ACT is a composite score of 24.

### **SAT/ACT: Participation, Percentage**

Districts are grouped into three subcategories based on percentage of non-special education graduates who took the SAT, ACT, or both in the prior year. Districts that did not have graduates make up a fourth subcategory.

### **Small/Sparse Adjustment**

Districts are grouped into four subcategories, each with approximately the same number of districts, based on adjustments to state funding to compensate for small and/or sparsely populated districts. Districts receiving no small/sparse adjustment make up a fifth subcategory. Small/sparse adjustments are shown as percentages of total adjusted basic allotment amounts.

### **Student Change: 2004-05 – 2005-06**

Districts are grouped into five subcategories based on change in enrollment from the prior school year to the current school year.

### **Student Density**

Districts are grouped into four subcategories based on number of students per square mile. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not have mileage information.

### **Students: African American, Hispanic, and Non-White, Percentage**

In each of these three categories, districts are grouped into six subcategories based on racial/ethnic composition of enrollment. The term "Non-White" is used to designate the following groups combined: African American, not of Hispanic origin; Asian or Pacific Islander; Hispanic; and Native American or Alaskan Native.

### **Students: Economically Disadvantaged, Percentage**

Districts are grouped into six subcategories based on percentage of enrollment reported as economically disadvantaged. A student is reported as economically disadvantaged if he or she is:

- eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- from a family with annual income at or below the federal poverty line;
- eligible for Temporary Assistance to Needy Families or other public assistance;
- a recipient of a Pell Grant or comparable state program of need-based financial assistance;
- eligible for programs assisted under Title II of the Job Training Partnership Act; or
- eligible for benefits under the Food Stamp Act of 1977.

### **TAKS: Passing All Tests Taken, Percentage**

Districts are grouped into five subcategories based on percentage of Texas Assessment of Knowledge and Skills (TAKS) examinees in Grades 3-11 who passed all TAKS tests taken. Districts that did not administer TAKS make up a sixth subcategory. The percentages include only examinees who were enrolled in the same districts in October of the school year.

### **Tax: Local Adopted Rate**

Districts are grouped into four subcategories, each with approximately the same number of districts, based on total locally-adopted tax rate. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not levy property taxes. The total locally-adopted tax rate is made up of a maintenance and operation rate and a debt service rate (sometimes referred to as the Interest and Sinking fund rate). Rates are expressed per \$100 of taxable value.

### **Tax: Local Maintenance & Operations Rates**

Districts are grouped into four subcategories based on locally-adopted maintenance and operation (M&O) tax rate. Special statutory school districts and charter school districts make up a fifth subcategory, labeled "non-taxing entities," because they do not levy property taxes. The M&O rate includes money generated by districts for equalizing wealth.

### **Teacher Experience**

Districts are grouped into four subcategories, each with approximately the same number of districts, based on average years of teacher experience. The average for a district is calculated by multiplying the full-time-equivalent (FTE) count for each teacher by years of experience. Results are summed, then divided by the FTE count for all teachers.

### **Teacher Salary**

Districts are grouped into four subcategories, each with approximately the same number of districts, based on average teacher salary. The average for a district is calculated by dividing the salary for all teachers by the full-time-equivalent (FTE) count for all teachers. Salaries reflect pay for regular duties only; they do not include pay for supplemental duties.

### **Teachers: Non-White, Percentage**

Districts are grouped into six subcategories based on percentage of non-White teachers. The term "Non-White" is used to designate the following groups combined: African American, not of Hispanic origin; Asian or Pacific Islander; Hispanic; and Native American or Alaskan Native. The percentage for a district is calculated by dividing the full-time-equivalent (FTE) count for non-White teachers by the FTE count for all teachers.

### **Teachers: With Advanced Degrees, Percentage**

Districts are grouped into four subcategories, each with approximately the same number of districts, based on percentage of teachers with advanced degrees. The percentage for a district is calculated by dividing the full-time-equivalent (FTE) count for teachers with master's or doctorate degrees by the FTE count for all teachers.

# Compliance Statement

## **Title VI, Civil Rights Act of 1964, the Modified Court Order, Civil Action 5281, Federal District Court, Eastern District of Texas, Tyler Division.**

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

1. acceptance policies on student transfers from other school districts;
2. operation of school bus routes or runs on a nonsegregated basis;
3. nondiscrimination in extracurricular activities and the use of school facilities;
4. nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;
5. enrollment and assignment of students without discrimination on the basis of race, color, or national origin;
6. nondiscriminatory practices relating to the use of a student's first language; and
7. evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

## **Title VII, Civil Rights Act of 1964 as Amended by the Equal Employment Opportunity Act of 1972; Executive Orders 11246 and 11375; Equal Pay Act of 1964; Title IX, Education Amendments; Rehabilitation Act of 1973 as Amended; 1974 Amendments to the Wage-Hour Law Expanding the Age Discrimination in Employment Act of 1967; Vietnam Era Veterans Readjustment Assistance Act of 1972 as Amended; Immigration Reform and Control Act of 1986; Americans With Disabilities Act of 1990; and the Civil Rights Act of 1991.**

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Opportunity/Affirmative Action employer.
