**TO THE ADMINISTRATOR ADDRESSED**

**Subject: Early Childhood Data System (ECDS) for Public Prekindergarten, High Quality Prekindergarten Grant Program, Private Prekindergarten Providers and Kindergarten Data**

The Early Childhood Data System (ECDS) is a state reporting feature in the Texas Student Data System (TSDS). In the 2016-2017 school year, several changes will occur to the ECDS application due to House Bill 4 and the changes to Texas Education Code (TEC) 29.1532, Prekindergarten Program Requirements. All public schools will be required to report additional data elements for public prekindergarten programs at the district and campus level through PEIMS and ECDS. Improved collection methods will also eliminate duplication in data entry. **The ECDS data submission will be available beginning February 13, 2017 and continuing through August 17, 2017.**

Existing and new data elements to be reported beginning in the 2016–2017 school year for public prekindergarten programs, high quality prekindergarten grant programs, private providers and public kindergarten data are:
