00:15:22	Seth Rutledge:	and a Career independent study option
00:15:23	Chris Reichelt:	Dual Credit
00:15:25	Lori Weinheimer:	PAP/AP/DC
00:15:30	Patricia Soto:	Pre-AP and Advanced Courses, Dual Enrollment, and competitions

00:15:32 Mel Harlan: Same. Working on building a task force of HS students to see what they want to see for GT services

00:15:32 Lori Mabry: AP/Advanced

00:15:39 Darla Leach: Dual Credit and Collegiate HS, as well

00:15:42 Donna Hodge: Adding in additional services and supports for our secondary currently! We have PreAP, AP, and dual credit courses currently.

00:15:44 Laurie Westphal - FBISD: we are working on developing GT specific PAP/AP courses. we offer GT mentorship for seniors

00:15:49 Brie Smith: We offer G/T sections of each core course. Independent Study at 7-12.

00:15:55 Mallory Pouliasis: AP with differentiated instruction or advanced pathways which vary by individual. This is something I am working on this year! It is a huge goal and a huge undertaking as our high school has so many options and many opt for CTE instead of advanced

00:15:55 Candy Tijerina: This is definitely an issue we are going to be looking into. We are currently offering services through AP, dual credit, advanced courses.

00:15:59 stephanie rivera: MS GT elective class

00:16:00 Rhonda Boyer: AP, IB, Magnet, Advanced CTE, Dual Credit; GT Learning Plan that includes GT Choice Boards and Texas State Performance Standards Projects

00:16:02 Margo Gige: AP, PAP, GT Clustering is specific classes which have a product, AP Seminar, AP Research, 2 additional math classes

00:16:13 Donna Hodge: We are adding in workshops for students and parents to help them navigate their choices.

00:16:14 Roxanne Brown: GT specific courses for English and Math, in addition to a GT elective

00:16:22 K. Hope Angell: PAP/AP/DC but we are project based learning and all of our teachers have their GT hours so they are all supposed to differentiate even in the AP classes.

00:16:31 Donna Hodge: We are also adding in support for growth of GT in advanced CTE courses.

00:16:41 Mel Harlan: For those of y'all who cluster GT within specific sections of advanced or AP, how do you get your counselors & registrars on board?

00:17:07 Seth Rutledge: Haven't gotten much pushback

00:17:14 stephanie rivera: Mostly PAP/AP/Dual classes...teachers have GT hours.

00:18:02 Candy Tijerina: @Mel, our district makes it a non-negotiable

00:18:38 Mel Harlan: @ Candy, so mandate from higher up (superintendent & asst sups)?

00:19:18 Candy Tijerina: Correct! We have those conversations at the district level and push the requirement down to the campus

00:19:53 Mallory Pouliaxis: @Mel--In elementary I don't have any issues. At secondary, I use "the state plan says" I also have to remember due to the schedule options there may not be a lot the counselors can do about it

00:23:42 Mallory Pouliaxis: Does ISM still count when you have students in there who are not gifted? or is it like AP? We invite our GT students to participate, but the remaining spots are filled with gen ed.

00:24:42 Amy Gresham: We would love to have the TPSP assessment rubric available in Spanish

00:25:12 Sheila Mulbry: Starting with making sure all teachers who are teaching AP and Honors have their GT 30-hours. Then, going to look at getting them to design the classes or options.

00:25:28 Mallory Pouliaxis: Sorry, those were 2 separate things, they just posted one right under the other

00:27:16 Amy Gresham: Thank you!

00:28:21 Chris Reichelt: Could Destination Imagination, UIL or Robotics be used in place of the Independent project?

00:28:27 Chris Reichelt: Asking for a friend :)

00:29:11 Chris Reichelt: We are keeping a digital portfolio of their experience in our GT program. Will that work?

00:31:11 Chris Reichelt: With a presentation of this information their senior year.

00:57:37 Lora Holt: we have discussed furlough

00:57:45 Sheila Mulbry: Maybe that's something for another meeting?

00:58:00 Lora Holt: especially because of the stress that a lot of our students are experiencing

00:58:04 Kimberly Flores: I am having trouble, parents are requesting kids to be pulled out of program bc they can barely keep up with regular work load remotely
