

Certified Principal Demographics by Preparation Route 2009-2013

This table shows the number and percentage of candidates who received their first standard Principal certificate through each preparation route, broken down by gender and by race or ethnicity.

Definition. A standard certificate is a certificate offered since 1998-99 that is renewed every five years.

Results

- Overall, more than two-thirds of Principals were female, and most Principals were white.
- The percentage of male Principals increased slightly during each year shown.
- All preparation routes declined over the years examined, although the out-of-state route showed an increase in fiscal year 2012-13.
- In fiscal year 2012-13, the alternative route produced less than half as many certified Principals as in fiscal year 2008-09.

* Results for individual routes may not sum to the total for All Routes, because the total is a count rather than a sum. A sum of routes may contain duplication as educators can be prepared through more than one route.

Certified Principal Demographics by Preparation Route 2009-2013

Summary of methodology. Five tables were extracted containing identification numbers, preparation route codes, genders, and races or ethnicities of individuals obtaining their first standard Principal certificate for fiscal years 2008-09 through 2012-13. For each year and preparation route, a total of all Principals was obtained, together with counts by gender and race or ethnicity. Each count was then taken as a percentage of the corresponding total. The process was repeated to obtain overall results for all routes. Finally, the two sets of results were combined into one table.
