

STAAR End-of-Course

2013 Test Administrations

Cumulative History Student Data File Format

Overview

The Cumulative History Student Data file will contain one record for each student for which a document was received during the administration being reported. Records must match on PEIMS ID, and two out of three of the student's last name, first name, and date-of-birth for the records to be combined onto a single record. The student's record will contain the highest score for each assessment that the student has attempted.
