STAAR 3–8 REPORTING STUDENT DATA FILE FORMAT

Overview

All STAAR, STAAR Modified, STAAR L, and STAAR Alternate data for a student will be combined into one record on the data file, including both English and Spanish. Students can test with varying assessments; however the results will be merged together to create one record in the individual student record file. Records will not be merged together when a student takes one or more subjects at one grade level, and one or more tests at another grade level.

Following is a list of the most significant changes being implemented in 2014.

1. **Texas Student Data System (TSDS) Unique Student ID:** The TSDS student ID is now provided through the Public Education Information System (PEIMS). The TSDS student ID will be placed on the student data file if a match can be made to the PEIMS file. See positions 191-200.
2. **Accommodations:** The type of accommodation information that is being collected in 2014 has been changed. See positions 252–338.
3. **STAAR Progress Measure and ELL Progress Measure Information:** The STAAR and ELL Progress Measures and associated fields have been added for the applicable subjects, including data that is used to determine the progress measures. See positions 421–446 (reading), 775–795 (mathematics), 1139 (writing), 1523 (social studies), and 1939 (science).
4. **On Track Information:** On Track fields have been added for the applicable subjects for the phase-in 1, phase-in 2, and recommended standards. See positions 422–424 (reading) and 776–778 (mathematics).
5. **Previous-year history information:** Previous-year history information for grades 5 and 8 retests has been added in positions 2561–2612 (reading) and 2681–2732 (mathematics).

Attention For Users of Tab-delimited Files

If you ordered a tab-delimited file, a delimiter has been placed after each data field in the file (Hex = 09). For example, the first data field, Administration Date, has a field length of 4 and is followed by a delimiter in position 5. Therefore, the data for Grade Level Tested begins in position 6 rather than position 5 as shown in the data file format.

421-421 1 **STAAR PROGRESS MEASURE** (grades 4–8)
Information about the STAAR Progress Measure may be found on TEA’s website at <http://www.tea.state.tx.us/student.assessment/staar/>. This field will be blank if the STAAR Progress Measure is not applicable for the student’s test or could not be calculated.
 2 = Exceeded
 1 = Met
 0 = Did Not Meet

ON TRACK (grades 4–7)
This data indicates whether a student is on track to pass the target assessment at the phase-in 1, phase-in 2, and recommended standards. On Track will not be calculated if the STAAR Progress Measure is not applicable for the student’s test.

Current Tested Grade	Target Assessment

WRITING REPORTING CATEGORY SCORES

Number of points achieved by reporting category. The reporting category 1 score represents the points achieved for the essay score(s) after weighting has been applied.

1107-1108 2

WRITING RAW SCORE

The STAAR writing raw score is calculated by adding the number of multiple-choice items answered correctly to the weighted (where applicable) written composition scores.

At grade 4 if a student has 21 of the 28 multiple-choice items correct and receives a combined score of 5 on the first written composition and a combined score of 6 on the second written composition, the student's total writing raw score will be 32 out of 44 possible raw score points $(21 + 5 + 6)$.

At grade 7 if a student has 32 of the 40 multiple-choice items correct and receives a combined score of 5 on the first written composition and a combined score of 6 on the second written composition, the student's total writing raw score will be 54 out of 72 possible raw score points $\{32 + (5 * 2) + (6 * 2)\}$.

The STAAR Modified writing raw score is calculated by adding the number of multiple-choice items answered correctly to the weighted written composition score.

At grade 4 if a student has 15 of the 22 multiple-choice items correct and receives a combined score of 5 on the written composition, the student's total writing raw score will be 25 out of 34 possible raw score points $\{15 + (5 * 2)\}$.

At grade 7 if a student has 24 of the 32 multiple-choice items correct and receives a combined score of 5 on the written composition, the student's total writing raw score will be 39 out of 50 possible raw score points $\{24 + (5 * 3)\}$.
